Britain's Real Ruler
Old-Fashioned Daughter
Drugs in That Prison?

A Prosperous Country

Ramsay MacDonald, elected head of the British Empire by the Labor party, is here, the first British Prime Minister to visit the United States while in office.

The Prime Minister is the most powerful man in England. The King, addressing his lords and commoners, says, "exactly what the Prime Minister tells him to say."

Miss Isabel MacDonald, here with her father, will seem hopelessly old-fashioned to many of our rising female generation.

She does not smoke or drink alcoholic liquors and does not paint or powder her face.

And, most old-fashioned of all, she does look after her father and takes a serious interest in public affairs.

If you see Ramsay MacDonald, Labor Prime Minister of Great Britain, you may also see Miss Rose Rosenberg, vivacious, able young woman, the Prime Minister's private secretary.

Miss Rosenberg joined the Socialist party in London eleven years ago and has been MacDonald's secretary nine years.

Observe the difference between "Democratic America" and "conservative Great Britain." Here, if you join the Socialist party, and talk "that way" you stand a fair chance of being locked up. In Britain you may become secretary to the Prime Minister.

The tragic rebellion of convicts in the Colorado state prison ended with 100 convicts walking out, hands raised above their heads, in surrender.

Four leaders of the rebellion had killed themselves. The convicts, at intervals, had thrown out of an upper window the bodies of guards captured and murdered by them; the warden, on each occasion, refused to let them go free.

Once a prison inmate was a poor and miserable creature, with poor and miserable friends, if any.

Some woman, sad-faced, might come to see the man in jail, bringing her child to see him, through the bars, giving him, perhaps, a few cents' worth of tobacco.

That is all changed in these bootleg days. Convicts have, outside the prison walls, gangster friends that control money unlimited. Convicts can afford to buy privileges, including drugs, even at the high prices charged in prison traffic.

That drugs played a part in the Colorado outbreak, with its reckless disregard for death and its suicides, seems probable.

Guards will learn from the Colorado tragedy to watch their prisoners carefully, and to watch with especial care any guard or other person engaged in the prison drug trade.

Uncle Sam continues to prosper, in spite of increasing expenses. In three months ending September 30 he collected more than one billion dollars, and \$123,659,834 more than he collected in the same three months a year ago. It's a big, rich country, with one single city spending in a year as much as the United States used to spend before the war.

Bootleg whisky, "home brew" and automobile accidents are related.

Drunken drivers kill many. Everybody knew that.

Now Doctor Norris, chief medical examiner of New York City, says that "drunken walkers" cause accidents for which the automobile industry is blamed.

Doctor Norris urges that reckless walkers be fined and adds, "Twenty-five per cent of adults hurt by automobiles are intoxicated."

Herman Linderman, New York gangster, strangled himself with his belt in prison. He had "squeezed" on his associates, had been stabbed once in prison, and feared what would happen when he reached the penitentiary again.

He put \$8.00 in the pocket of a criminal asleep in his cell with a note asking that it be divided with a friend. He wrote to that friend, "Have a good feast on me, on my way to hell." Crime does not pay.

Germany mourns the loss of Stremann, great and patriotic leader, who actually worked himself to death for Germany. Before he died he had the satisfaction of negotiating the evacuation of the Rhineland, thus restoring to Germany her territorial integrity.

The governor of North Carolina very intelligently thinks that in North Carolina wages should be made higher, hours shorter, in the textile industry. He does not agree with the theory that human beings in the South should be treated like cattle in order to attract northern capital.

Every intelligent American, especially the very rich and prosperous that want to remain rich and prosperous, is coming to realize the importance of paying good wages and giving men reasonable leisure for the enjoyment of life.

JURY FINDS MOON NOT GUILTY

S. D. MCCLAIN TO IONIA 5 TO 10 YEARS

The only criminal case to be tried in Circuit Court this week was that of Loren Moon, charged with the malicious killing of beasts. The jury brought in a verdict of not guilty.

This case arose out of the killing of a horse and mule on March 7th belonging to the State Military department. The horses had strayed from the Hanson Military Reservation and, it is claimed, ran loose in Beaver Creek township creating more or less nuisance. A horse and a mule were killed and another mule had been shot but recovered.

The accused was defended by Attorneys Harris & Chapin of West Branch. According to the verdict of the jury Prosecutor Merle Nellist, acting for the people, failed to establish the guilt upon Mr. Moon and the latter was acquitted.

The other cases on the criminal calendar were disposed of as follows:

Robert Alexander, charged with violation of the prohibition law. Case discontinued.

William Reamer, charged with the same offense, plead guilty and paid the court costs of \$25, and was discharged.

Another liquor case, against Mary Blichak, was held over as the defendant had left for parts unknown, leaving her bondsman, Ramsus Rasmussen liable for the forfeiture of the amount of \$250. The defendant must present herself in court at the next term or the bondsman would be liable for the amount of the bond.

In the case of S. D. McClain for larceny of a number of automobiles, gasoline, etc., a plea of guilty was entered and the defendant sentenced to from five to ten years in the reformatory at Ionia, with a recommendation of five years.

The jury civil case of John Malco vs. Charles H. Marker, trespass on the case, was settled out of court. Attorney Ross represented Mr. Malco and Attorney Harris the interests of Mr. Marker.

Five divorce cases appeared on the chancery calendar. Decrees were granted the following:

Gladys M. Wilcox vs. Glenn A. Wilcox.

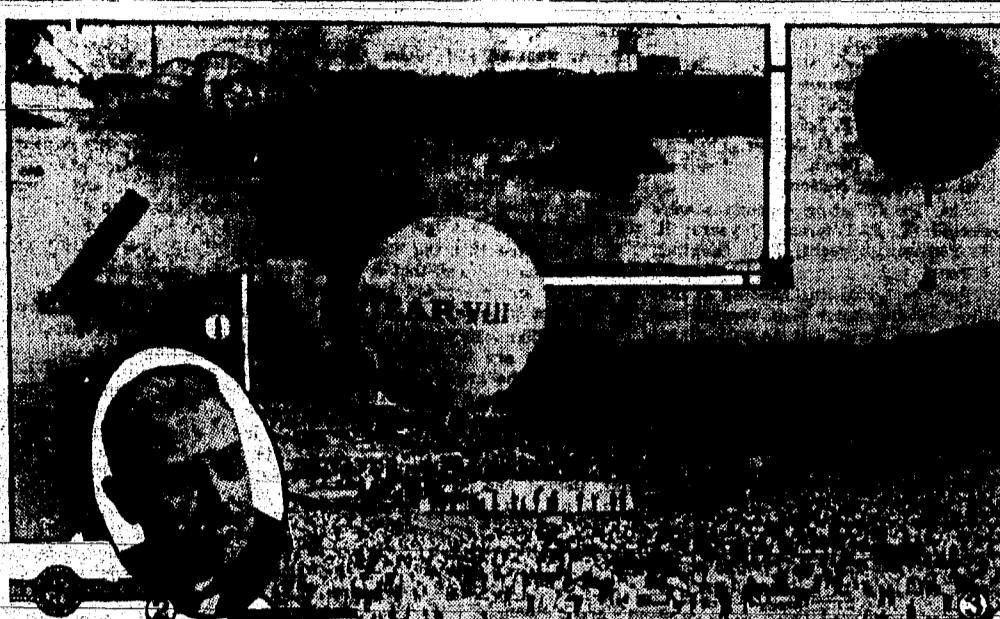

Verle G. Sheldon vs. Blanche L. Sheldon.

Effie J. Hadstate vs. Ed. R. Hadstate.

The divorce case of Lena M. Clothier vs. Ernest E. Clothier was continued to the next term.

Also the divorce case of Hazel D. Vallad vs. Albert J. Vallad was continued.

A motion was on file in the court

1—Scene on South Carolina side of the Savannah river during the destructive floods in the southeastern states. 2—Johanna Scherer, Iota of Socialists, who has been made chancellor of Austria. 3—Start of the international balloon race from St. Louis for the James Gordon Bennett trophy.

for a re-hearing of the Mary J. Wood will case. On consent of the attorneys in the case, they being occupied at this time and unable to be present in court, the hearing of the motion was postponed until Tuesday, October 22nd.

Court adjourned Wednesday noon. As usual Judge Guy E. Smith sat upon the bench and S. M. Atkins acted as court stenographer.

E. M. T. ANNUAL MEETINGS SCHEDULED FOR OCT. 24

The annual business meeting of the NorthEastern Michigan Development Bureau and the East Michigan Tourist association will be held at Bay City, October 24. The annual joint banquet of the two organizations will take place in the evening, probably at the Wenonah Hotel. The business

meeting and election of officers of the Development Bureau will take place at the log office in the morning, commencing at 10:30 o'clock. Henceforth this meeting has been held in the afternoon. The change is made to eliminate the congestion of business incident to holding meetings of the two bodies in the afternoon.

THE REPORT CARD

(By Grayling Public Schools)

Faculty-Senior Party

Despite the chill October weather, the Senior class and high school teachers had a very enjoyable time last Thursday evening on a wiener roast at the state park just opposite Camp Grayling, Lake Margrethe. This was a very much looked-for affair, and the only reason that it was held so late in the season was that almost every available date had been scheduled for other school activities. The high school teachers were the guests of the evening.

Starting from school at 4:30 the

group was taken in cars to the lake

where a fire had already been built.

By 6:00 o'clock things were ready to eat. Every one lined up, armed with dishes and sticks for roasting the wiener and filed around to get scalloped potatoes, buns, wiener, pickles, doughnuts and coffee. Everything eatable disappeared as if by magic.

It was quite natural when there were thirty-six hearty eaters there to see that nothing was left. After supper Mr. Cushman suggested a snipe-hunt. There were only six who had not enjoyed (?) this game before, so they were unsuspectingly led out to catch snipe and were left in the woods while those supposed to be rounding up the snipe were back at the campfire laughing at the snipe-hunters' "tough luck." Needless to say, new snipe were caught that evening. Afterward a few more games were played, and stories told. Margaret Fehl holding her listeners spellbound with her supply of hair raising tales. The party broke up about 8:45 and the group was taken back to town. Thus ended the first senior party, a great success.

Class Elections Over

Last Wednesday afternoon three

Personals

Irene Randolph spent a few days in

Ann Arbor last week.

There are quite a few cases of

chicken-pox in high school now.

Every morning at eight-thirty those

who have never had the malady are

examined for symptoms. This prevents a further spread of the disease.

Evelyn Johnson, a junior, is spending the week at Niagara Falls.

Miss Dorr is the first of the faculty

thus far to observe the latest style

her dress below her knees.

We admire your taste, Miss Dorr. Won't be long before others will follow suit.

Don't forget the Hallowe'en dance

two weeks from next Friday night at

the high school gym. \$1.00 a couple.

Dorothy Hossell has succeeded

where all others have failed, she has

caught a real, honest-to-goodness

snipe and not on the Senior snipe hunt either. Good work, Dot.

Jokes

Eda—Boo, hoo. My pen which was

guaranteed to last a lifetime is

broken.

Don K.—What of it?

Eda—Now I have got to die.

Don E.—So you think you know

as much as the Prof, do you?

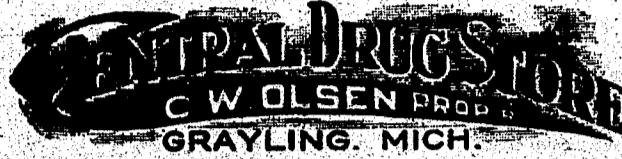

Art C.—He said himself that it

was impossible for him to teach me

DON'T CARE

One of the troubles of many of our towns is the great number of "Don't Care" people who make their home therein. They don't care for this, and they don't care for that. If anything is proposed for the good of the town they are not interested; they simply don't care. We wouldn't have much of a world if all the people were of the "don't care" order. You never find them among the boosters and if a town depended upon them it might as well curl up and die. The man who is of some benefit to a town is the man who cares, and the man who cares is the man who does something and keeps at it. Every town should have a Chamber of Commerce or a Business Man's Club of some kind, and every business man should belong to it. Things may not always go just as he likes to have them go, but that is no reason that he should take his playthings and go home and stay there. There are al-

ways two sides to every question, in fact someone has said that there are three sides; your side, the other fellow's side, and the right side. But, anyway the fellow who cares is the fellow who helps build up towns and make them prosperous, and the principal reason is that he does care. You will find him either for or against a proposition and not treating it with indifference. Stolen Again.

I. G.—Carl Doroh,
O. G.—Tracy Nelson.

Also the following executives were elected: T. P. Peterson, 3 years; H. F. Peterson, 2 years; Emil Giegling, 1 year.

Portage Lodge was honored at that time by an official visit from Grand Chancellor Swift and Deputy Grand Chancellor Frank E. Helmka. There was a good attendance of members present and also five members from Cheboygan Lodge and a number from Gaylord.

The meeting was held in Legion Hall and after the installation a luncheon and interesting talks were enjoyed.

WOMAN'S CLUB SPONSOR SO- CIAL EVENING TO MEET TEACHERS

The dining room of Michelson Memorial church was transformed into a very attractive reception room last Friday evening when the ladies of the Woman's club and teachers of our public schools received the parents and others interested in the welfare of our youth.

Autumn leaves with their glorious hues gave a warmth of color to the room, while wicker furniture had been so arranged to give the setting a comfortable air.

Mr. M. A. Bates made the introductory remarks, welcoming the guests and teachers. A reception line was then formed composed of Mr. Bates, Mrs. Herluf Sorenson, president of the Woman's club, Supt. and Mrs. LaBarge and his staff, of teachers.

After the program which was very nicely arranged and delightfully rendered the club ladies served lunch.

The following program was listened to with much interest by the guests:

Vocal duet—"Mighty Like a Rose," Neven—Mrs. Milnes and Mrs. Clipper.

Reading—"The Highwayman," Alfred Noyes—Miss Hazel Cassidy.

Vocal solo—"She never told her love," Handel—Miss McAllister, accompanied by Miss Hosner.

Piano solo—"At Twilight," by Astenius—Miss Ellen Gothro.

Reading—"The Quitter," Robert W. Service—Mr. Hill.

Vocal solo—"My Laddie," by Thayer—Mrs. Milnes, accompanied by Mrs. Clipper.

Short talk on "Practice of Hospitality"—Rev. J. W. Greenwood.

The Children's Corner A MILESTONE PAPER

WHAT WE LEARNED

The tide had turned, sparkling in the sun and gaily making white foam, the waves were coming up the sloping shore. There was little wind and the waves were very small indeed. They ran up the beach and then they ran back and every time, although you would not notice it unless you watched very carefully, they went up a tiny bit farther and did not go back quite so far.

Some children had been playing on the beach that morning and before they went home to lunch they had heaped up a big pile of sand. When the waves saw this ahead of them they felt discouraged. It did not seem as if they could ever get around or over so huge a sand heap. But they knew it was their duty to keep trying, so up the beach they ran, and back, and up again, over and over.

A sea-gull flew by, close over the tops of the waves. He was a young gull and not very wise so when he saw the tiny waves lapping at the base of the pile of sand he laughed and said, "Foolish little waves, you had better give up trying to climb that mountain."

But the waves paid no attention to this advice. Over and over they made their run up and down the beach and if you had been watching you would have seen slowly, but surely, the big sand heap disappearing.

An hour or so later the young sea-gull flew by, close over the tops of the waves. He thought he would see if the foolish waves had given up trying to climb the mountain that was far too high for them to even think of getting over. But when he reached that part of the beach he was so surprised that he almost forgot to flap his wings.

There was no mountain there! The sea-gull looked all around. Had he made a mistake in the place? No, he knew well that sheltered bit of shore just south of the big ledge of white rocks. There was no mistake, the mountain had gone. The waves had climbed right over it and covered it up.

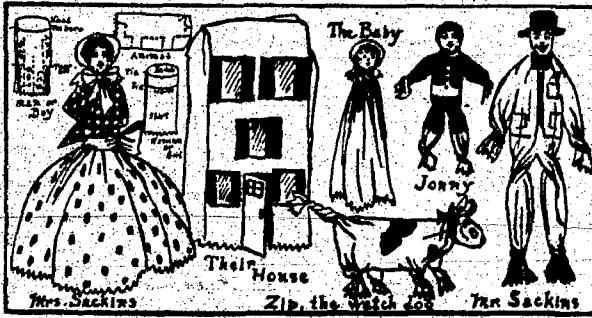

"Well," said the young sea-gull to himself, "that just goes to show what happens at a thing will do. Surely I'm as smart as a wave. After this I'm not going to give up trying to do a thing just because it seems hard." And before he flew off he dipped down close to the tops of the tiny waves and told them how sorry he was that he had called them foolish.

And the waves sparkled in the sun and murmured to each other as they ran gently up and down the sloping shore.

Now
he gets half his
motor oil free!

Figure it out for yourself. One less carbon and valve job a year means a saving of \$11 or \$12. And that's just half the average yearly expenditure per car for lubricating oil.

But how can you reduce the number of carbon removal and valve grinding jobs? Thousands have found a way. They have discovered through experience that one oil—Shell Motor Oil—forms very little carbon...on test, one-half to one-third less than many otherwise fine lubricants.

And this negligible amount of carbon is soft, fluffy and non-fouling. It does not bake on metal surfaces, but actually blows away with the exhaust gases.

However, with Shell Motor Oil, even more important than the reduction in carbon jobs is the freedom

from "frozen" piston rings and pitted valves...and the satisfaction which comes from driving a smooth-running and efficient automobile.

Shell Motor Oil is prepared from Nature's richest lubricating crude by the Shell low-temperature refining process. And before it reaches you, it passes 259 tests to certify that every quart possesses the four essentials of correct lubrication: Low Carbon Content, Non-Fouling Carbon, Ideal Body at All Operating Temperatures, and Low Pour Point.

STOP AT THE SIGN OF THE SHELL
—And let the Shell Lubrication Chart be your guide. Courteous salesmen await you at the familiar yellow and red service stations. Courteous everywhere.

To the man who
asks for oil by name—we say:
"Try Shell for 30 days!"

Shell Motor Oil by name knows
the difference in lubrication in oils. It won't
allow the formation of carbon, and better oil
means better service, and better
service means better driving.

Shell Motor Oil is the oil you stop on the
highways, but it doesn't stop on the highways.

WHERE TO FIND CROWD, STATE
IN SLOWLY, SURELY DAY.
ING UP

From the Croswell Jeffersonian:
Forty-two years ago the writer of this column attended the Croswell fair. The day will never be forgotten, as it was the day of the drunken riot that took place at the fair grounds and on the main streets of the city. A day when the stoniest exertions of the law-abiding citizens of the city and county were taxed to the limit to maintain any semblance of order. The city jail was packed with drunks and at that only the fighting drunks were jailed.

Last week the fair was again in session and there was a much larger crowd in town than in 1887, yet there was not an arrest for drunkenness, nor did a drunk come to our sight. There was a rumor that some visitor had more than he could successfully carry, yet he was not in evidence and the probabilities are that he was not really drunk.

We are just reciting these facts for the benefit of a class of our citizens who persist in trying to make themselves believe that there is "more liquor used now than before prohibition." If they really knew how silly the arguments sounds to those who were here in the "good old days" they would be ashamed to voice their sentiments.

Less than thirty years ago there was a block on Howard avenue that was so saturated with booze and drunks that a lady would much prefer to cross the street than to pass down on the west side.

While there is still some drinking and probably always will be, the number of visible drunks has dwindled to almost nothing. This is a fact and if there is more booze than formerly why is there not more intoxication?

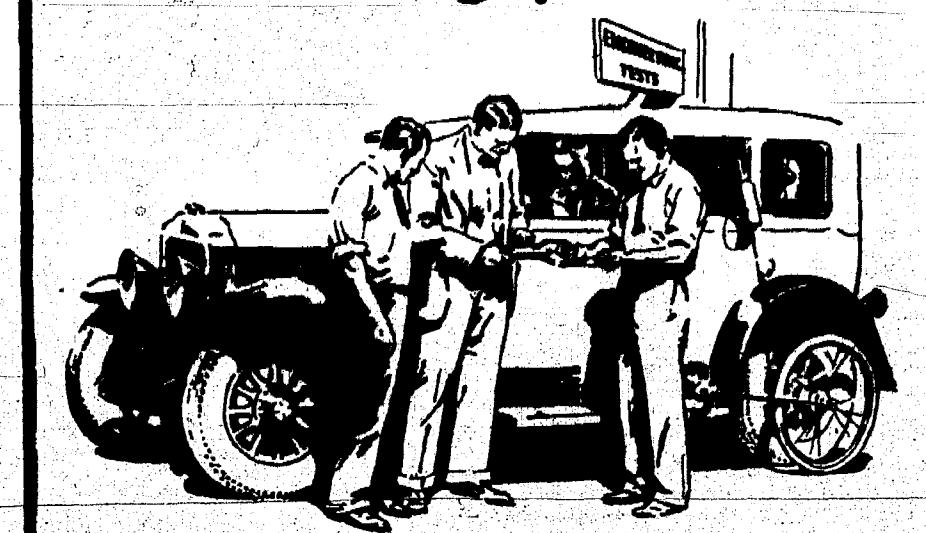

NEW USE FOR JOE ROVER MAP

The Joe Rover maps distributed by the East Michigan Tourist association this year continue to arouse enthusiastic claim, not only in the state but from many places outside the state.

In a letter received by T. F. Marston from Mrs. Herman L. Petersen, Elgin, Illinois, a new use for the maps is disclosed. In this particular case the maps are being used to advertise Michigan in a unique manner.

"At a party of high school young folks the other evening," Mrs. Petersen writes, "we passed out slips with 15 questions about Michigan towns or lakes and allowed 12 minutes for answers. After the game was over we brought out your Joe Rover map and perhaps you can imagine the fun they had. One of the maps I gave to a friend who, with a party of three adults, went to Houghton and Higgins Lake three summers in succession. They also went to Gaylord."

Men like these
are testing your car

Types of the engineers at General Motors Proving Ground who are working for you to assure a safe, good motor car.

I T used to be the custom for a man who wanted to buy a car to take a mechanic with him.

Today, General Motors itself employs skilled automotive engineers to make it easy for you to select your new car. These men are working for you at its Proving Ground—the 1168-acre outdoor laboratory in Michigan where every kind of car is tested.

Before any General Motors car goes into production, a fleet of advance models is constructed and sent to the Proving Ground. There these advance cars must meet every test—tests far harder than you would make. Sometimes they are rebuilt, redesigned, retested many times until they are pronounced *right*, and ready to be put into production.

The tests involve speed, power, endurance, braking, riding comfort, handling ease; fuel and oil economy; body strength and safety—every phase of car construction and performance.

Buying a car is easy today—because these men at the Proving Ground are working for you to assure you of value when you select a General Motors car.

Mr. Francis Wiemberg, came home for a few days visit. She will return to her new home in Saginaw Monday.

C. P. Kelley of Frederic came down with the Saginaw special last week to attend the banquet.

W. Woodfield is taking a weeks vacation from the wagon, leaving it to be engineered by Failing. Mr. and Mrs. Woodfield will enjoy the time at Bay City and the southern part of the state.

The Scandinavian Society are moving the house opposite the Presbyterian church, and will erect a fine hall and library building on the site for the use of their society.

Mrs. J. R. Williams, nee Dorothy Johnson, and the baby, returned to St. Louis, Mo., home last week.

Mr. Williams came up to accompany her only staying long enough to say "Hello" and "Good Bye". Her visit has been greatly enjoyed by her friends, except for its brevity.

The corner stone of the Gaylord State Savings Bank building was laid some time Wednesday. Mr. Buck presented the latest issues of the local papers and together with one of the recording banks had them bricked up with it.

If the Citizen's Band could have heard half of the fine things said of the past few days. Last Friday Mrs. their music by our Saginaw visitors Wright, Mrs. Morgan, of Buffalo, N. Y. and for the assignment and distribution of all.

They were successful, at least Miss Wright was, the excitement was high for a while, the way that said folks made the water foam, the old boat, the high singer, who would not be excited. Mrs. Wright finally landed the largest fish of the day, 48 inches long. This is not a fish story, these are the authentic facts, if you doubt it, ask Dr. Underhill.

SAVE MONEY

Ownership of a Pontiac Big Six is an experience in economy. True, most people choose Pontiac, not because it is so inexpensive, but because of the many big car advantages which it provides. But it is a fact that with a Pontiac you actually save money. You save—

When you buy . . . When you drive . . . When you trade it in

You save when you buy a Pontiac because it is the lowest-priced car ever produced which offers so many advantages. You save when you drive because, according to a large corporation which employed 996 cars of 33 different makes during 1928, Pontiac costs one cent less per mile to operate than any other low-priced six. You save when you trade it in because the demand for used Pontiacs has always exceeded the available supply. Come in to see and drive the car which offers all these advantages.

Pontiac Big Six, \$745 to \$995, f. o. b. Pontiac, Mich., plus delivery charges. Delivery charge, about \$10 extra. General Motors Time Payment Plan available at minimum rates.

Consider the delivery price as well as the list (f. o. b.) price when comparing. Pontiac is delivered price, includes only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

Mr. and Mrs. C. C. Wescott of Ypsilanti spent the week end at the home of Mrs. J. K. Hanson. They returned Monday accompanied by Mrs. J. K. Hanson and Mrs. Louis Jensen. The ladies will remain for an extended visit.

Mrs. Olaf Michelson returned to her home in Detroit Saturday after spending the summer months at their summer home at Lake Margrethe. She was accompanied by Miss Helen Schumann who is visiting relatives in that city.

The Nick Schjotz, Hans Petersen and Mrs. Lottie Atkinson groceries are offering a number of specials for a week, beginning October 11 and ending October 18, in a page advertisement in this paper. They are advertising among other articles the four great products from corn—Karo syrup, Argo starch, Mazola oil and lard. Read the advertisement.

The preliminary meeting for the year's work was held by the Good fellowship club Monday afternoon at the home of the president, Mrs. C. G. Clippert. Reports were made and work of the club year discussed. The club will enjoy the winter studying home decorations and gardening. The hostess served lunch. The regular meetings will be held Monday evenings.

Mrs. Floyd J. McClain and the Misses Marion Reynolds and Agnes Hanson were hostesses at a comical dress party at the McClain cottage at Lake Margrethe last Friday evening. There were fifteen guests and the hostesses served a delicious lunch.

Word was received yesterday by relatives of the death at Danville, Illinois, of Mrs. Nettie Sherman, wife of the late Benjamin F. Sherman. Mrs. Sherman who has been in ill health for some time, left several weeks ago for Danville, to make her home for the winter with her daughter, Mrs. Hugh A. McMilla. The remains will arrive in Grayling this afternoon and the funeral will be held tomorrow (Friday) afternoon.

Parents are urged to keep in mind the fact that toxin-antitoxin is to be given at the school, the first dose of the series on October 30th, the following doses to be given a week apart. The hours are from 8:00 to 12:00 o'clock and in Room 19. Drs. Keyport and Clippert will give their time free of charge and parents are urged to make an effort to have their children between 6 months and 16 years, immunized against diphtheria at this time.

Mrs. Hugo Nelson and little son of Indian River joined Mr. Nelson here Tuesday and the family are nicely domiciled in the Burke apartments. Mr. Nelson is the new pharmacist at the Central Drug Store.

The regular monthly meeting of the directors of the local lumber companies was held yesterday. The following from out of the city were in attendance: A. E. and F. L. Michelson, O. S. Hawes, F. C. Burden, Detroit; E. J. Cornwell, Saginaw; W. W. Helm, Raae, Johannesburg.

Mrs. Nikolin Schjotz returned home yesterday morning from Detroit, where she had been visiting her brothers Alfred and Waldemar Olson and their families. She had accompanied Mrs. C. F. Hines, who had been her guest, as far as Detroit on the latter's return to her home in Seattle, Washington. Mrs. Schjotz saw "The Miracle" that is being so widely advertised in Detroit, and showing at the Olympia, and says it is wonderful.

Every note from bass to treble a true musical tone, possessing a depth, volume and resonance that is a peculiar and exclusive attribute of the LINDEMAN.

It's All in the OVAL Soundboard

It's original and scientific principle of construction not only increases, but also maintains, the perfect arch of the soundboard under all conditions, thereby assuring the vibration of every note to its fullest value, and making impossible the "tinpanny" tone that results from a flattened soundboard.

It has been used but very little and is in excellent condition.
